RE: Fair Tax Legislation

Dear Congressman Camp:

The FairTax lifts the burden of income taxation from American businesses, addressing the import/export tax dichotomy that is hurting American exports and driving American jobs overseas. The FairTax, by untaxing capital, promises the return of trillions of dollars into the US economy, spurring investment and domestic job growth. The FairTax, by untaxing income, allows Americans greater control over their personal finances and will help lift millions of Americans out of poverty and into the kind of jobs and lifestyles they deserve. And the FairTax, by providing a prebate, re-establishes the fundamental right of Americans to be free of taxation upon the necessities of life.

As for the canard that HR-25 will never be passed or signed into law, the math is quite simple. It will take 218 members of the House of Representatives who are willing to correct the mistakes of the past, 60 members of the US Senate who are willing to forego personal power and enrichment, and one President of the United States of America who places the future of our children and grandchildren above the politics of the present.

For these reasons and more, I urge you to consider the FairTax. This comprehensive reform plan is embodied in H.R. 25 and S. 122. The taxpaying public - individuals, farmers, schoolteachers, seniors, small business owners, and others - will thank you for it.

Sincerely,

James Ledoux
